Dear Hiring Manager,

I am writing to express my strong interest in the Senior Data Scientist position at your organization.

In my current role as Senior Data Scientist at Vendavo, I've been at the forefront of designing and implementing advanced data analytics solutions.

Your job description emphasizes the need for someone who can develop models that extract meaningful insights from complex data sets.

I am particularly drawn to the collaborative aspects of this role. At Vendavo, I've worked cross-functionally with engineering and product teams to drive data-informed decisions.

The leadership component of this position also resonates with me. Having transitioned from a data analyst to a senior data scientist, I understand the challenges of leading a team.

My recent focus on LLM-based applications, including my certifications in LangGraph and development of AI-powered chatbots, aligns well with the innovative nature of your company.

I am excited about the opportunity to apply my expertise in AI/ML to workforce data challenges and contribute to the growth of your organization.

Thank you for considering my application. I welcome the opportunity to discuss how my skills and experience can benefit your team.

Sincerely,

Kristine Gyulbudaghyan
